SUBJECT INDEX

- Ageing
 IC during, 96
- Alloantibodies
 response to kidney, 111
- Allograft rejection
 and cimetidine treatment, 193
- Alloimmunization
 with kidney, and antibody response, 111
- Allotype
 Gm, and HLA gene interaction, 8
- Alpha-methyl dopa
 interactions with RBC membranes, 554
- Alveolitis
 macrophages in, 60
- Amphotericin B
 effect on CMI, 186
- Antibodies
 and genetic control, 8
 circulating, in testicular tumours, 438
- Antibody
 hybridoma-secreting, and B and null cells, 593
 thyroid-stimulating, in Graves' disease, 532
- Antigens
 of the liver (review), 1
- Arthritis
 Ig and SMA in, 103
- Ascorbate
 in treatment of TB, 327
- Aspergillosis
 allergic bronchopulmonary, 581
- Autoantibodies
 correlation with CIC, 96
 in response to kidney, 111
- Autoimmunity
 development of, 365
- Basophils
 and histidine uptake, 423
- B cell defects
 in ageing, 365
- C3b receptors
 in CFA, 60
- cAMP
 levels, in hypogammaglobulinaemia, 351
- Candida allergen
 and HLA-D, 345
- Central nervous system
 Ig-containing cells within, 42
 lymphoma of, 249
- Chagas' disease
 and *T. cruzi* antigens, 36
- Chemotaxis
 impaired, of cord blood PMNs, 620
- Cimetidine
 and skin graft rejection, 193
- Complement
 defects, and bacterial meningitis, 16
 in placenta, 299
 in *S. aureus* bacteraemia, 306
- Complexes
 immune, *see* Immune complexes
- Conglutinin
 in detection of CIC, 459
- Corticosteroids
 and NK cells in SLE, 83
- Cryoglobulins
 and plasma fibronectin, 358
- Dermatitis herpetiformis
- Dexamethasone
 induces IgM receptors, 178
 IgA CIC in, 431
- Diabetes mellitus
 and IC, 96, 445

- Differentiation
 - B cell, and levamisole, 161
- Dipetalonema viteae*
 - in experimental filariasis, 487
- DNA
 - and suppression in SLE, 72
 - in SLE, 264
- Down's syndrome
 - and hepatitis B, 478
- Dysgamma Type I
 - Ig synthesis in, 147
- Dysgenesis
 - ovarian, and autoimmunity, 540
- Encephalomyelitis
 - fibrinopeptides in, 49
 - influence of LA on, 523
- Endocarditis
 - and renal inflammation, 469
- Enzyme-linked immunosorbent assay
 - quantitates CIC, 411
- Eosinophils
 - and alteration in binding capacity, 206
 - kill *F. hepatica*, 336
- E rosette-increasing factor
 - augments rosette formation, 602
- Erythrocytes
 - eosinophil-binding capacity for, 206
- 'Facteur thymique serique'
 - and marrow cell differentiation, 396
- Factor
 - eosinophil chemotactic, lymphoma-derived, 249
- Fasciola hepatica*
 - killed by eosinophil protein, 336
- Fibrinopeptides
 - in EAE, 49
- Filariasis
 - CIC in, 312
 - resistance to microfilariae, 487
- 5-fluorocytosine
 - effect on CMI, 186
- Fungal infections
 - and drug therapy, 186
- Gene
 - HLA, and Gm interaction, 8
- Glomerulonephritis
 - effects of interferon on, 373
- Graves' disease
 - detection of TSAb, 532
- Henoch-Schönlein purpura
 - IgA CIC in, 431
- Hepatitis
 - chronic active, suppressor cells in, 89
 - in Down's syndrome, 478
 - renal IC in, 453
- Histamine
 - enhances histidine uptake, 423
- Histidine uptake
 - enhanced by histamine, 423
- HLA-B
 - and Gm allotype interaction, 8
- HLA-D
 - and Candida allergen, 345
- HLA identity
 - and CMI reactions, 136
- Hypertension
 - and CMI, 120
- Hypogammaglobulinaemia
 - cAMP levels in, 351
- IgA deficiency
 - in children, 561
- IgA suppression
 - of leucocyte migration, 388
- IgE
 - stimulates alveolar macrophages, 416
- IgE formation
 - in ABPE, 581
- Immune complex
 - Clq-binding, in SLE, 283
- Immune complexes
 - circulating, during ageing, 96
 - in DH, HSP and SLE, 431
 - in diabetes mellitus, 445
 - in filariasis, 312
 - in liver disease, 292
 - quantitated by ELISA, 411
 - radioconglutinin-binding assay for, 459
- detection in SLE, 273
- effect on DNA clearance, 264
- in endocarditis, 469
- renal, in hepatitis, 453
- Immune response
 - in vitamin A deficiency, 127
- Immune response gene
 - HLA-linked, 345
- Immunity
 - and schizophrenia, 515
 - cell-mediated, and skin tests, 566
 - in anti-fungal therapy, 186
 - in leukaemia, 136
 - in SHR rats, 120
 - LAI assay for, 383
 - to leishmaniasis, 25
- Immunodeficiency
 - with hyper-IgM, 147
- Immunodepression
 - in hypertensive rats, 120
- Immunoglobulins
 - in arthritic joints, 103
 - in the CNS, 42
- Immunosuppression
 - and corticosteroids, 83
 - and tumour cells, 168
- Immunotherapy
 - and serial skin testing, 202
- Inhibiting factors
 - from tumour cells, 168
- Inhibition
 - lymphocyte, and pregnancy proteins, 157
- Interferon
 - effect on glomerulonephritis, 373
- Isotype
 - Ig, in CLL, 256
- J chain synthesis
 - in myeloma cells, 573

- Kala-azar
 - immunology of the host, 318
- Kidney homogenate
 - and serological analysis, 111
- Leishmania donovani*
 - role of CMI in resistance, 508
- Leishmaniasis
 - immunity to, 25
 - role of CMI in resistance, 508
- Leucocyte adherence inhibition
 - and bacterial infection, 383
- Leucocyte migration
 - and IgA suppression, 388
- Leucocytes
 - polymorphonuclear, movement in newborns, 620
- Leukaemia
 - acute lymphoblastic, and suppression, 586
 - antigenic changes in, 136
 - chronic lymphocytic, Fc receptors in, 256
- Levamisole
 - and B cell differentiation, 161
 - in treatment of TB, 327
- Linoleic acid therapy
 - in encephalomyelitis, 523
- Liver
 - antigens of (review), 1
- Liver disease
 - IC in, 292
- Lung lavage
 - and alveolar macrophages, 60
- Lymphocyte inhibition
 - and pregnancy proteins, 157
- Lymphocyte markers
 - defined by antibodies, 593
- Lymphocytes
 - in IM, 197
- Lymphoma
 - immunohistology of, 235
 - provides ECF, 249
- Macrophage activation
 - mechanisms of (review), 223
- Macrophage cytotoxicity
 - against microfilariæ, 487
- Macrophages
 - alveolar, stimulated by IgE, 416
 - ⁵¹Cr-labelled, in MIF assay, 627
 - in CFA, 60
- Meningitis
 - bacterial, and complement defects, 16
- Metoprolol
 - in treatment of TB, 327
- Migration inhibition assay
 - with ⁵¹Cr-labelled macrophages, 627
- Mononucleosis
 - infectious, lymphocytes in, 197
- Multiple sclerosis
 - encephalomyelitis as a model, 523
- Myeloma
 - presence of J chain in, 573
- Natural killer cells
 - and corticosteroids, 83
- Neuraminidase
 - and T cell Fc receptors, 611
- Neutrophil phagocytosis
 - of IC in SLE, 283
- Newborns
 - and PMN movement, 620
- Oophoritis
 - and oocyte antibodies, 540
- Papillon-Lefevre syndrome
 - immunology of, 407
- Phagocytosis
 - neutrophil, of IC in SLE, 283
- Placentae
 - complement in, 299
- Plasma fibronectin
 - in cryoglobulins, 358
- Poliomyelitis
 - Ig-containing cells in, 42
- Pregnancy proteins
 - and lymphocyte inhibition, 157
- Propranolol
 - in treatment of TB, 327
- Receptor
 - C3b, in CFA, 60
 - Fc, and neuraminidase treatment, 611
 - in CLL, 256
 - IgM, induced by dexamethasone, 178
 - monocyte, loss of, 66
- Rosette formation
 - augmented by RIF, 602
- Schizophrenia
 - evidence for neurotissue hypersensitivity, 515
- Skin reactivity
 - and *in vitro* microbial response, 566
 - serially tested with multiple reagents, 202
- Smooth muscle antibodies
 - in arthritic joints, 103
- Staphylococcus aureus*
 - and complement activation, 306
- Streptococcus sanguis*
 - in experimental endocarditis, 469
- Suppression
 - IgA, of leucocyte migration, 388
 - in ALL, 586
 - in SLE, 72, 77
- Suppressor cell activity
 - in CAH, 89
 - in SLE, 77
- Systemic lupus erythematosus
 - DNA-anti-DNA IC in, 264
 - IC detection in, 273
 - IgA CIC in, 431
 - loss of monocyte receptors in, 66
 - neutrophil phagocytosis of IC in, 283
 - NK cells in, 83
 - suppression in, 72, 77
- Thymectomy
 - and autoimmune oophoritis, 540
- Trypanosoma brucei brucei*
 - in experimental trypanosomiasis, 496
- Trypanosoma cruzi*
 - antigens on mammalian cells, 36

- Trypanosomiasis
 using *T. brucei brucei*, 496
- Tuberculosis
 immune function in, 327
- Tumours
 a source of immunosuppressive factors, 168
 testicular, antibodies in, 438
- Vibrio cholerae* neuraminidase
 and T cell Fc receptors, 611
- Vitamin A deficiency
 immune response in, 127
